Profile Summary

Built and deployed full-stack web apps using React, TypeScript, Node.js and MongoDB, with hands-on experience in REST API design and databases. Completed a web development internship at iStudio while studying Computer Science in the final year. Skilled at building clean, responsive interfaces, testing and debugging APIs, and writing clear documentation. Comfortable moving between frontend, backend and deployment. Seeking a Software Developer role to help build reliable web products and keep growing as an engineer.

Education

REVA University, Bangalore, Karnataka 2023 - 2027
Bachelor of Technology in Computer Science and Information Technology
KV AFS Avadi, Chennai – Class XII (CBSE)
KV AFS Avadi, Chennai – Class X (CBSE)

Experience

Web Development Intern, iStudio – Pune, Maharashtra Nov 2025 – Mar 2026

- Completed a web development internship and built SmartTask Hub, a full-stack task app (React, Node.js, Express.js, MongoDB).
- Added clear error messages, delete confirmation, pop-up alerts and live task counts for each status.
- Built 4 REST API endpoints (GET, POST, PUT, DELETE) in Express.js to create, view, edit and delete tasks.
- Built the React interface with search, 2 filters (status, priority) and 4 sort options.
- Added 3 task statuses and 3 priority levels, with due date and time checks that reject past dates.
- Deployed on Vercel and earned a verified certificate (Mar 2026). [Live: taskflow-tawny-gamma.vercel.app](https://taskflow-tawny-gamma.vercel.app)

Projects

Campus Event Finder – React, TypeScript, Node.js, Express.js, MongoDB, Socket.IO [Live: c-e-s.vercel.app](https://c-e-s.vercel.app)

- Built a full-stack platform where students find and register for campus events and organizers manage them.
- Added 3 login options: email with OTP verification, Google and Microsoft.
- Added QR code registration and attendance, plus team sign-up and event registration deadlines.
- Added attendance certificates, event feedback and Q&A comments for students and organizers.
- Tested the APIs and fixed bugs across login, registration, QR and attendance.

Personal Portfolio Website – React, Three.js, Framer Motion, Vite [Live: about-me-rho-one.vercel.app](https://about-me-rho-one.vercel.app)

- Built an interactive portfolio with 3D animations (Three.js) and smooth page transitions (Framer Motion).
- Made reusable, responsive React components and used Vite for fast load times.
- Deployed on Vercel with automatic deploys from GitHub.

Skills

Frontend: React.js, HTML5, CSS3, Responsive Design
Languages: JavaScript, TypeScript, Python, Java, C++, SQL
Tools: Git, GitHub, Vercel, Render, CI/CD
Backend: Node.js, Express.js, REST API Design, Socket.IO, JWT Authentication
Databases: MongoDB, MySQL, PostgreSQL
Core CS: Data Structures & Algorithms, OOP, Design Patterns, System Design Basics, Computer Networks
Data: Pandas, NumPy, Matplotlib, Power BI
Soft Skills: Problem-Solving, Debugging, Teamwork, Communication, Time Management

Certifications

- Introduction to Cybersecurity – Cisco Networking Academy (Sep 2026)
- Leadership Principles for Software Engineers – Advancing Women in Tech, via Coursera (Sep 2026)
- Gemini Certified Student – Google for Education (2025)
- AI & ML Masterclass – Eureka Association, in collaboration with REVA University
